# MINT CONDITION

By Doree Biting

What's fresh this season? Mint, that's what! This soothing hue has made its way onto tables (Aretier Gary Lee's Time Piece and Crate & Barrel's Span Gateleg), light fixtures (Normann Copenhagen's Ikono lamp and Urban Electric Co.'s Sloane sconce) and even wallpaper (Koesel Studios' Allhambra). We can't help but thank the 1960s throwback trend for the resurgence. Dorothy Draper's Greenbrier hotel in West Virginia is an exquisite homage to this creamy color, but for those with more contemporary inclinations, here are five fully minted modern picks.
