LAMP
GWENWOOD WALL LAMP by Urban Electric Co., urbanelectricco.com
"This lamp hangs from overhead and swings from side to side, perhaps suggesting the feeling of being suspended in a tree."

PILLOW
BIRD CAGE SCREEN PRINT DOCUMENT PILLOW by Lacefield Designs, lacefielddesigns.com
"This pillow is a piece of art, handmade and appliquéd by Beth Lacefield of Lacefield Designs. Her eclectic design aesthetic incorporates tones inspired by nature, vintage patinas and fashion-inspired details that give each pillow a unique feel. And we love the idea of the bird being up in our 'tree' with us."

BEDSIDE TABLE
3' AND 4' SALVAGED WOOD SHELVES by West Elm, westelm.com
"The bed is casual, charming, lighthearted and yet a very strong design element. We wanted to simplify what goes with it, so for the bedside 'table' we chose simple yet strong horizontal shelving, stacked to suggest steps leading up to our 'perch.'"

THE INSPIRATION

TREE BED
by Shawn Lovell
Metalworks, slmetalworks.com
Metal artist Shawn Lovell hand-forges every piece of her one-of-a-kind beds, which these designers describe as "whimsical," "precious" and "bold." Their challenge: find accents that walk the line between simplicity and strength, and can hold their own against such a dramatic centerpiece.
