

LIGHTING & DECOR
 FEBRUARY 2017
 MALPLAQUET

THE URBAN ELECTRIC CO.

Urban Electric Co.'s Malplaquet pendant, designed by Steven Gambrel, is available in many body and accent finishes, including green. It's UL damp-rated and 48 inches long from the canopy. www.urbanelectricco.com

From Tubes, heated towel rail Scaletta operates without installation. The two versions, wall-mounted or freestanding, are accessorized with a hook and a sponge tidy. The floorstanding version can also be fitted with a practical storage shelf. www.tubesradiatori.com

Why Greenery Works

According to trend expert Michelle Lamb of The Trend Curve, Greenery fits with other trends on the 2017 horizon, including a warmer palette and an increase in floral patterns like cactus motifs, tropical leaves and tree-of-life patterns.

What strikes Lamb most about Greenery is its versatility. "I know that the home furnishings industry has sometimes struggled to find an appropriate role for the Color of the Year," Lamb says. "I believe there will be no such struggle here."

Hancock & Moore's Novella leather sofa makes a statement in green. Note the nailhead trim along the bottom. Measures 87.5 inches wide. www.hancockandmoore.com
