

ATLANTA HOMES & LIFESTYLE
SEPT 2009 / DOVER BELL

THE URBAN ELECTRIC CO.

SHON PARKER AND TIM COUGHLIN,
Shon Parker Design Inc.
MASTER BEDROOM

THE INSPIRATION FOR THIS RETREAT, says Shon Parker, came not only from the room's stunning architecture, but also from circa-1920s photographs of modern architecture in Russia. The arched window, treated with velvet drapery panels in an ochre color, creates the grandest of "headboards." Meanwhile, channel-quilted walls are more linear, as is a bed designed by Parker himself, providing the perfect foil for the soft curves of the window and the barrel-vaulted ceiling. The bed's design is ingenious for this location, too; pillows can be positioned, conventionally, at the head or at the foot, to better admire the skyline view.
